

Vitamin D

Does your child have asthma?

If so, your child may qualify for the Vitamin D to PREvent Severe

Asthma Exacerbations Study (VIDPRESAE).

Researchers at UCSF Benioff Children's Hospital are currently studying asthma in relation to low Vitamin D levels.

Your child may be eligible if he/she is...

- Is 6-14 years of age
- Has been diagnosed by a doctor with asthma
- Has used asthma medications for 6 or more months.

Compensation will be provided. If interested please call: **(866) 913-8477**
