

FOR IRB USE ONLY IRB ID #:  
 APPROVAL DATE: RELEASED DATE:  
 EXPIRATION DATE:

Researchers at **UCSF Benioff Children's Hospital** are investigating the best treatment options for children and adolescents who are diagnosed with Asthma. Participants between the ages of 12 to 17 will be cared for by UCSF Asthma Specialists for up to 36 weeks, and will receive education about asthma management.

**To participate in this research study, you must:**

- Be at least 12 years of Age
- Can be on daily asthma controller medication

**What we will ask you to do:**

1. Attend study visits over the course of a year and four months
2. Participate in breathing tests, blood test and urine samples,
3. Sputum (mucus) samples will be collected from participants
4. Do home breathing tests (peak flows) between research study visits and keep an electronic diary about your asthma
5. Take study medications as explained

**Eligible participants who join the research study will be compensated for their time and will be provided research study medication at no cost.**

**To join this research study, please contact a SIENA study coordinator toll free @ 1-866-913-8477.**
